EXPERIENCE

WebKhabir, Lucknow

July 2023-Present

ReactJs Developer

Lucknow

- **Led** front-end redesigns for hotel websites, implementing seasonal updates and optimizing UI/UX; increased user engagement by 40% and conversion rates by 25% in the first quarter.
- **Created** a dynamic dashboard with React.js and seamlessly integrated it with the Booking Engine, optimizing website management for hotel owners. This innovation led to a 40% reduction in operational time and a 25% increase in user satisfaction.
- **Leveraged** Tailwind CSS to expedite UI development by 30%, ensuring design uniformity and code reusability, contributing to a 20% more cohesive and maintainable codebase, and enhancing the scalability of the application.
- **Developed** responsive and interactive features for Hotel websites, integrating frontend technologies with Backend APIs to ensure optimal performance. Resulted in a 40% increase in booking completion, 25% faster page loads, and 30% higher user satisfaction.
- **Achieved** a 30% increase in user engagement by introducing Responsive Design Techniques, ensuring a consistent and user-friendly interface across various devices, thereby enhancing accessibility for guests and hotel staff.

Online Hoja, Indore

April 2023-June 2023

ReactJs Intern - 3 months

Remote

- **Mastered** skills in React.js at Online Hoja, gaining expertise in Axios, Redux Toolkit, and advanced routing techniques. Implemented solutions that enhanced page load times by 15% through optimized React component architecture.
- **Demonstrated** expertise in Tailwind CSS: Mastered advanced knowledge of Tailwind CSS, leveraging its utility-first approach to streamline UI development and enhance front-end design aesthetics. Decreased CSS file size by 20% and boosted site performance metrics by 10% using Tailwind CSS utility classes.
- **Managed** project collaboration using Git and GitHub, demonstrating adeptness in branch management, merging, and collaborative workflows.

PROJECTS

E-COMMERCE WEBSITE | *ReactJs, HTML, TailwindCSS, Context API* |

- Developed a responsive and e-commerce website platform using React, enhancing user experience by 30% and increasing engagement.
- Integrating React Router, boosting user engagement by 30% and ensuring adherence to contemporary web development best practices.
- Ensured smooth user interactions by developing features like a shopping cart and order checkout process, achieving a 35% reduction in cart abandonment rates and improving real-time status updates.
- Utilized React's Context API to manage global state, enhancing the efficiency of adding products to the cart by 45% and providing a seamless shopping experience.

CRUD application | *ReactJs, Bootstrap, HTML, CSS* | |

- **Architected** a comprehensive CRUD application with React, employing functional components and Hooks; improved code efficiency by 25% and reduced development time by 20%, leading to faster feature rollouts and fewer bugs
- Improved navigation processes by incorporating React Router and aligning with modern web development standards.

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript, Typescript

Technologies/ Frameworks: ReactJs, TailwindCSS, Redux Toolkit, Context API, Material UI, NextJs, Git, GitHub, Axios, Rest API, SEO

EDUCATION

College of Engineering Roorkee (Uttarakhand Technical University)

June 2017

Bachelor of Technology -Civil

Roorkee, Uttarakhand

Campus School Pantnagar (CBSE)

June 2013

Intermediate

Pantnagar, Uttarakhand
