SUMMARY

Fullstack Web Developer with hands-on experience on HTML, CSS, JavaScript, ReactJs, NodeJs specializing in creating and implementing visually stunning and interactive website elements.

EXPERIENCE

Net Interns, Noida - 6 months　　　　　　　　　　　　　　　　　　　　　　　　**July-Dec 2023**
Web Development Intern　　　　　　　　　　　　　　　　　　　　　　　　　　　　　　　*Remote*
- Proficiently design, develop and maintain **server-side** applications leveraging **Node.js** and frameworks like **Express.js**, ensuring robustness and reliability in application architecture.
- Seamlessly **collaborate** with development **teams** to seamlessly integrate server-side logic with user-facing elements, ensuring a cohesive and responsive user experience.
- Implement robust data storage solutions utilizing **MongoDB** and other databases, ensuring secure and efficient data management for the application.
- Develop **RESTful APIs** and seamlessly integrate third-party services and APIs into the application architecture, enhancing functionality and extending the application's capabilities.
- Integrate third-party services and APIs into application architecture to enhance functionality and expand feature set, promoting a comprehensive **user experience**.

PROJECTS

Voting application | *ReactJs, Node.js, Express, MongoDB, Context API, JWT* | ⊙ | ⬈　　　　**Mar 2024**
- Developed a MERN (MongoDB, Express.js, React.js, Node.js) voting application integrating **JWT** authentication for secure **user validation**.
- Employed React **Context API** for streamlined state management, enhancing application **performance** and user experience through efficient data handling.
- Created **REST APIs** to seamlessly retrieve user and candidate data from the backend, **optimizing performance** and enhancing functionality.
- Implemented **one-time** voting functionality for users to ensure fairness while restricting candidate addition to **admin privileges**, maintaining portal integrity.

CRUD application | *ReactJs, Bootstrap, Node.js, Express, MongoDB* | ⊙ | ⬈　　　　　　　**Feb 2024**
- Engineered a comprehensive **CRUD** application in React, utilizing functional components and **Hooks** for streamlined code organization and improved **maintainability**.
- Implemented **React Router** to optimize navigation flows, ensuring a **user-friendly** experience and aligning with best practices for modern web development.
- Incorporated a **user-centric** dark mode feature using **React Hooks**, enhancing accessibility and visual appeal for a diverse range of user preferences.

DashDeal: E-Commerce Application | *React.js, Bootstrap, MongoDB, Node.js, Express.js* | ⊙　　　**Jan 2024**
- Created a robust e-commerce platform using **React** & **Node.js**, incorporating user validation via JWT authentication.
- Crafted **REST APIs** to fetch product detail offered **product filtering** by 2 distinct filters including category price.
- Implemented **search functionality**, alongside 2 dashboard for **user** & **admin** allowing for profile order management.
- Deployed an **e-commerce** application, ensuring seamless cart usage, **order checkout**, and efficient status management

TECHNICAL SKILLS

Programming Languages: HTML/CSS, JavaScript
Frontend Development: ReactJs, TailwindCss, Redux Toolkit, Material UI
Backend Development: Node.js, Express, MongoDB, Postman
Technologies/ Library: Git, GitHub, Axios, REST API

EDUCATION

College of Engineering Roorkee (Uttarakhand Technical University)　　　　　　　**June 2017**
Bachelor of Technology -Civil　　　　　　　　　　　　　　　　　　　　　　　*Roorkee, Uttarakhand*

Campus School Pantnagar (CBSE)　　　　　　　　　　　　　　　　　　　　　　**June 2013**
Intermediate　　　　　　　　　　　　　　　　　　　　　　　　　　　　　*Pantnagar, Uttarakhand*

CERTIFICATIONS

Web Development　　　　　　　　　　　　　　　　　　　　　　**Nov 2022 – Dec 2022**
Internshala Trainings
